TIVA Building Products is a Canadian, family run business dedicated to creating premium and innovative building products for dream outdoor spaces. We're known for our unwavering commitment to quality, attention to detail, and unique designs. As an experienced distributor and retailer in the industry, we were more than surprised when we were unable to find suitable materials for our own outdoor spaces. This realization inspired our company to create a new category of building products.

We invested years in plastics research, development, and testing. We took time to focus on quality, performance, and features. And then we took more time to perfect them.

The results were incredible. Premium, durable, and beautiful building products unlike anything else on the market.

Today, products like TIVADEK and TIVADOK are changing the way people design and enjoy their outdoor spaces. We're proud of our people, our products, and our ongoing pursuit of better building solutions.

TIVADEK™

WE'VE GOT YOU COVERED

The advanced PVC core is capped with an ASA capstock. ASA (Acrylonitrile-styrene-acrylate) is a tough and rigid plastic that is well known in the Automotive Industry for its heat resistance, colour retention, and high outdoor weatherability.

- SUPERIOR UV PROTECTION
- STAIN RESISTANT
- SCRATCH RESISTANT
- SUITABLE FOR HARSH CLIMATES
- RESISTS AGAINST MOISTURE DAMAGE
- MOLD AND MILDEW RESISTANT

INDUSTRY FIRST

Finished and Embossed on all 4 sides

RIGHT TO THE CORE

TIVADEK PVC Decking uses advanced Carbon Nanotechnology to construct its core. This unique and industry leading technology is what makes TIVADEK PVC Decking one of the strongest and most stable PVC deck boards on the market.

CORE & CAPSTOCK

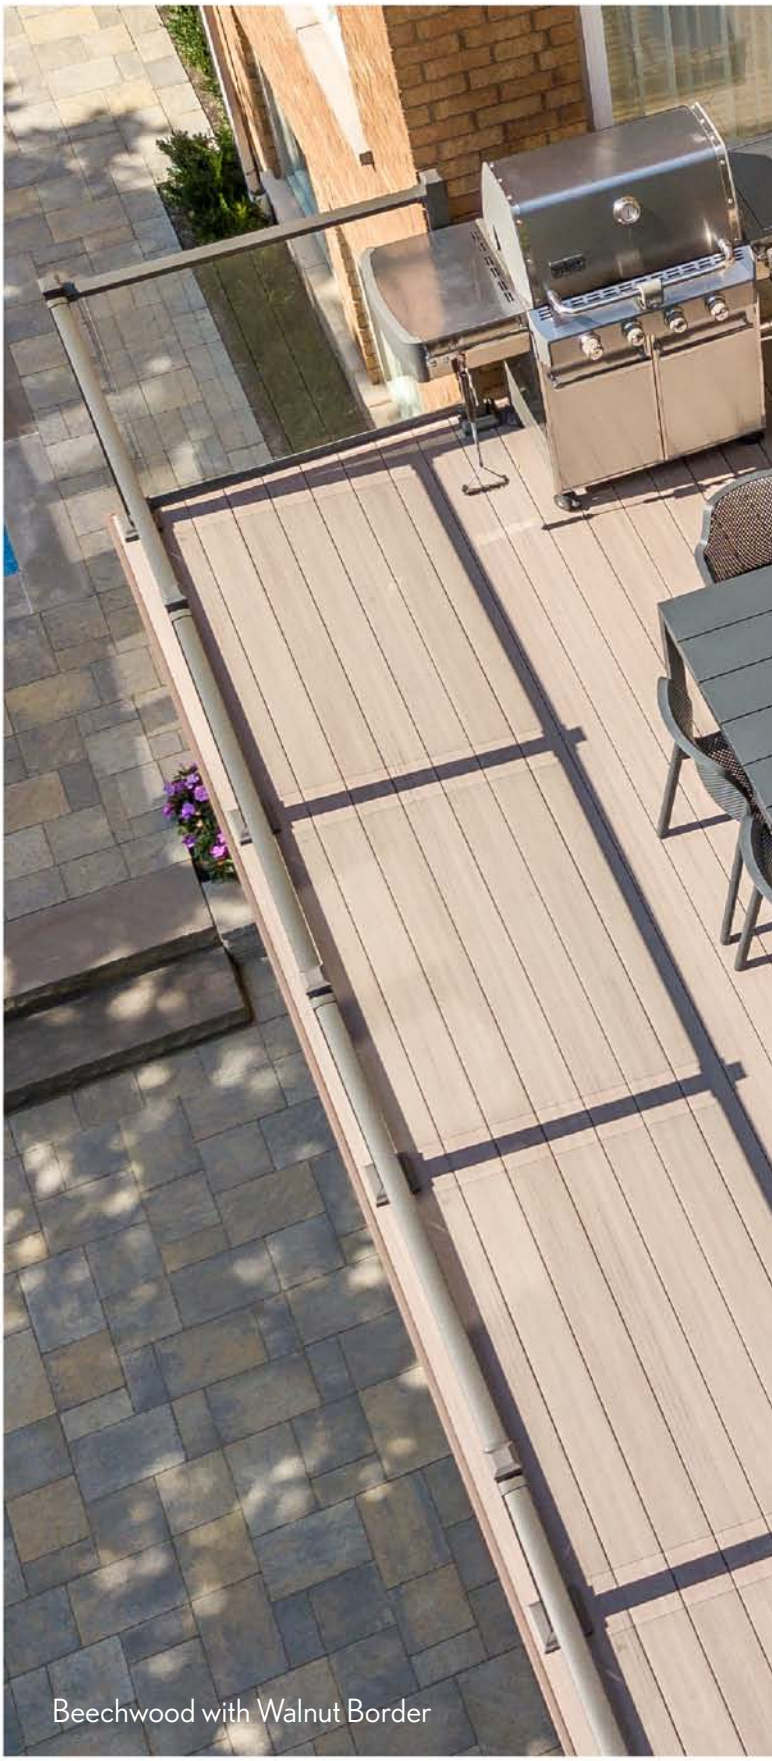
ARCHITECTURAL SERIES

DESIGNER SERIES

MODERN SERIES

Maximize your living and minimize the maintenance with TIVADEK PVC Decking. TIVADEK has designed specialty wood colours and high performance boards that allow you to bring your living space outdoors with style and confidence. Using advanced Carbon Nanotechnology, TIVADEK is an industry leading PVC deck board that uses the highest quality materials to make your outdoor oasis last a lifetime.

COLOURS



Beechwood with Walnut Border

ARCHITECTURAL SERIES

Our Architectural Series creates a classic and elegant look in any outdoor setting. These beautiful **solid** colours, inspired by four stunning hardwoods, are designed to stand the test of time in style and colour.

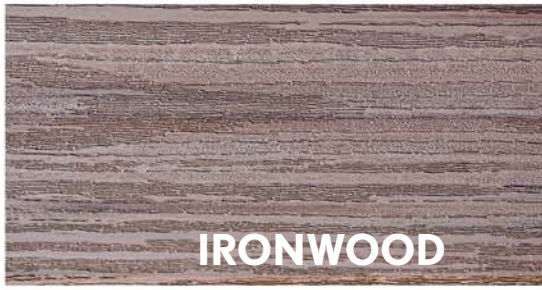
TIVADEK™

Square edge deck boards: 1" x 5.5"
Available in 16ft. and 20ft. lengths

Our Designer Series brings PVC decking to life using an exclusive design palette and naturally inspired **variegation** and embossing. These elements combine to create a unique deck board that is both striking and authentic.

DESIGNER SERIES

Tigerwood with Kingwood Border



TIVADEK™

Square edge deck boards: 1" x 5.5"
Available in 16ft. and 20ft. lengths

Square edge deck boards: 1" x 5.5"
Available in 16ft. and 20ft. lengths

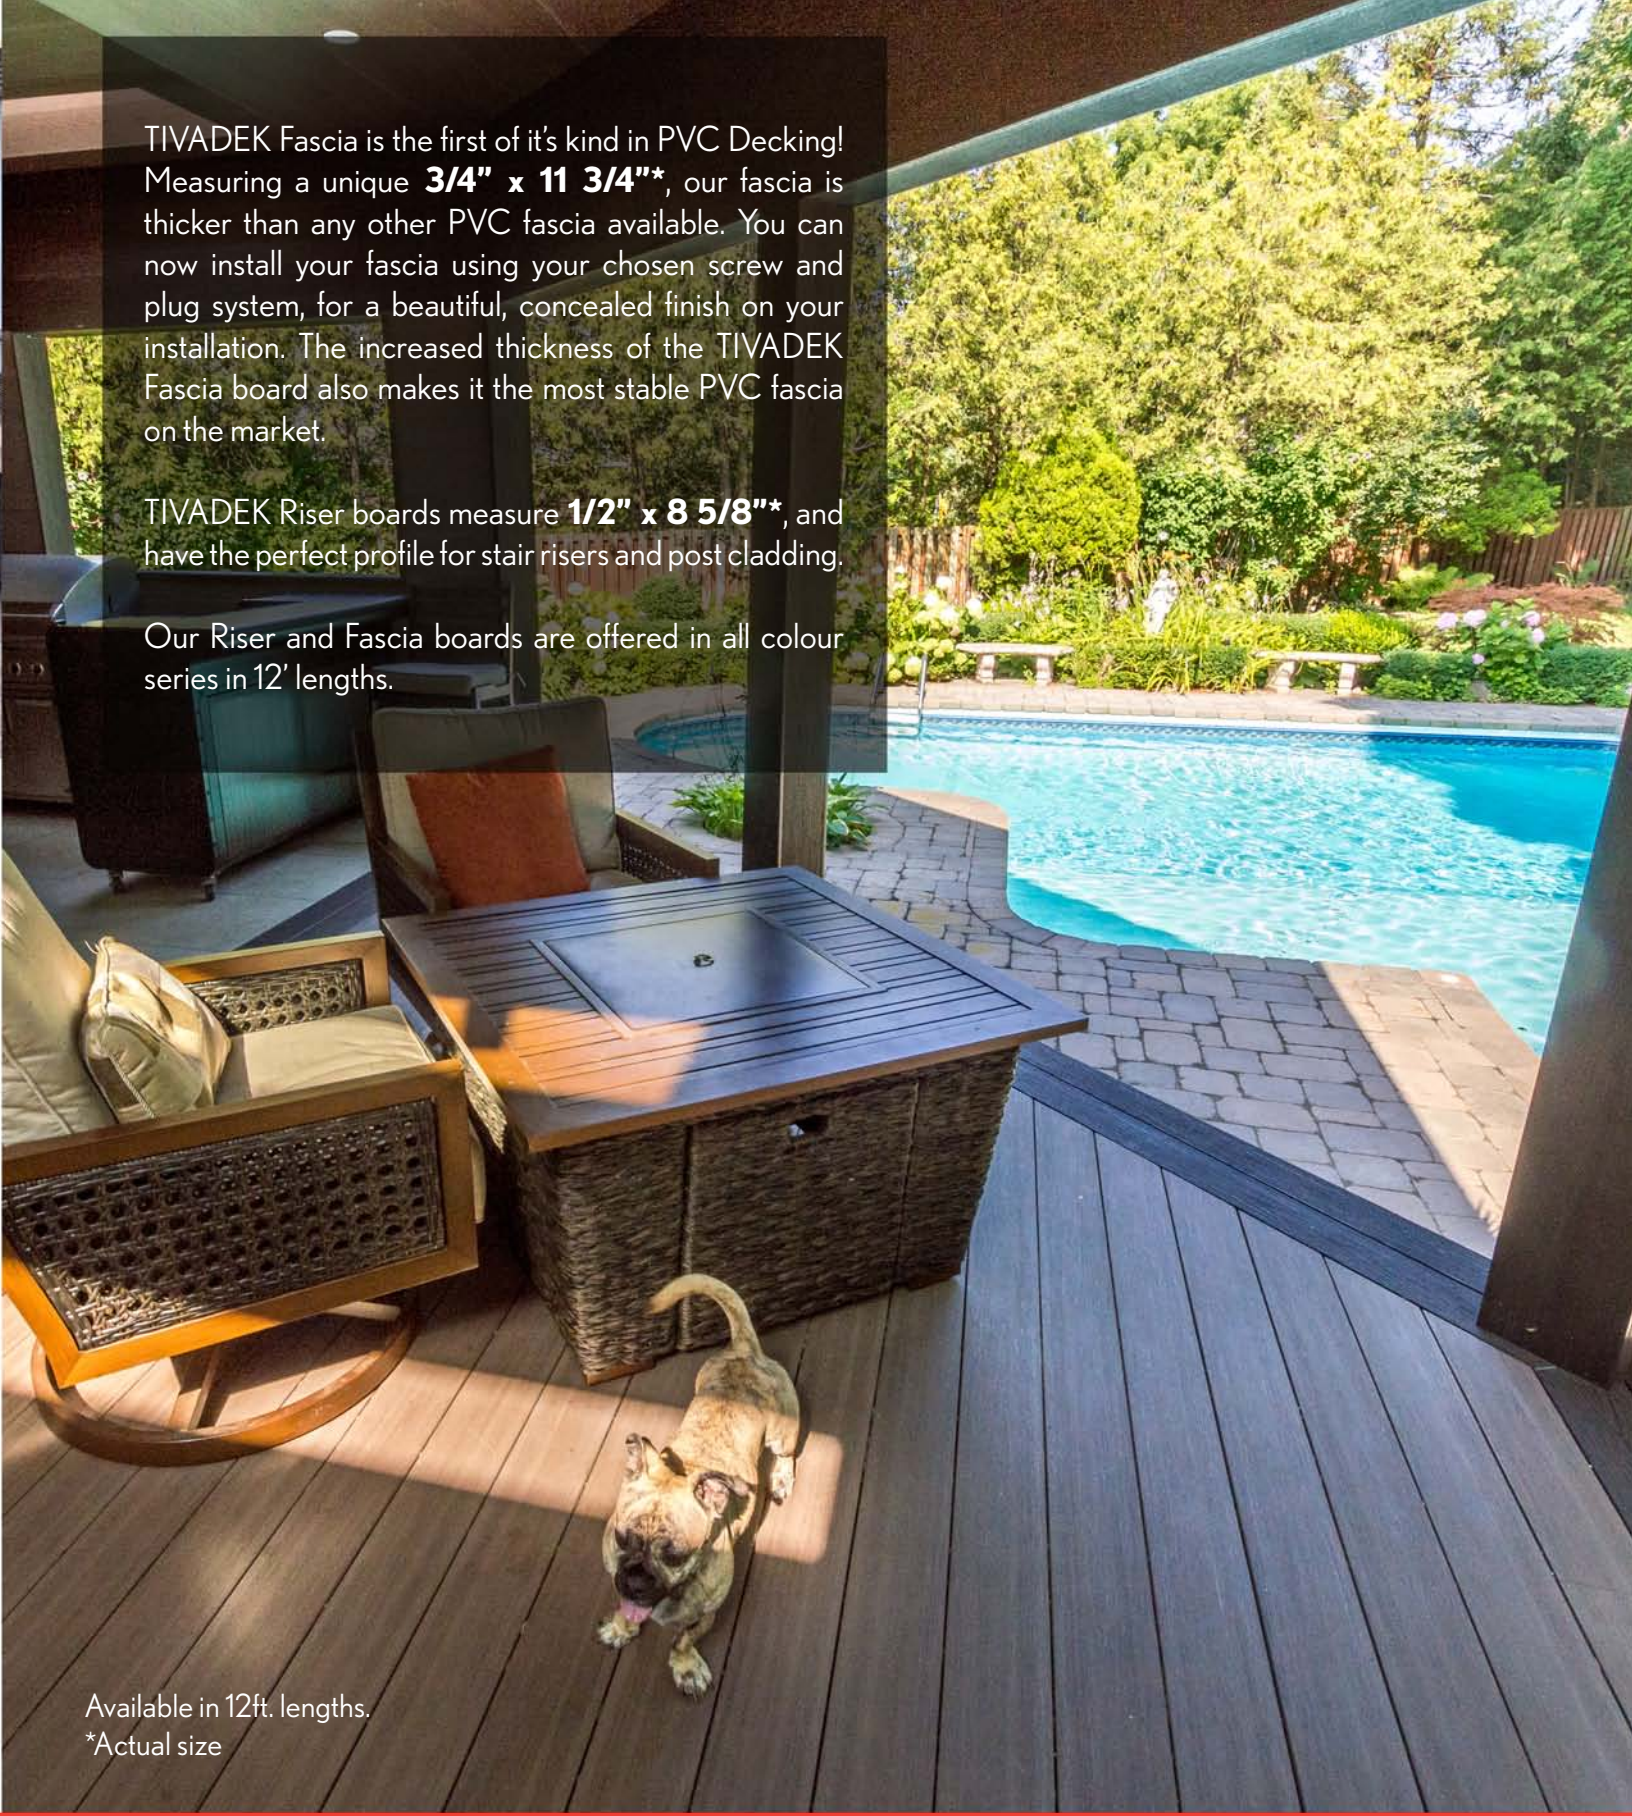
SPECIAL EDITION
COLOUR
& EMBOSSING

Our Modern Series was designed for those who want to be bold and get edgy. This trendsetting series gives the ultimate finish for the urban and rustic modern design.

CHARWOOD

BIRCHWOOD

MODERN SERIES



TIVADEK Fascia is the first of it's kind in PVC Decking! Measuring a unique **3/4" x 11 3/4"***, our fascia is thicker than any other PVC fascia available. You can now install your fascia using your chosen screw and plug system, for a beautiful, concealed finish on your installation. The increased thickness of the TIVADEK Fascia board also makes it the most stable PVC fascia on the market.

TIVADEK Riser boards measure **1/2" x 8 5/8"***, and have the perfect profile for stair risers and post cladding.

Our Riser and Fascia boards are offered in all colour series in 12' lengths.

Available in 12ft. lengths.
